

The Planning Process

The Bannock County Wildland –Urban Interface Fire Mitigation plan was developed using a number of tools and resources. Those include:

- **Citizen input from local meetings**
- **Fire District Survey Evaluating**
 - 1. Past Fire Occurrence**
 - 2. Fuel conditions**
 - 3. Population of District**
 - 4. Suppression capabilities**
- **Survey distributed to District patrons**
- **Interviews with other agencies**
- **ISU-GIS assessment**
- **Fire District interview and assessment**
